Dear Secretary,

In accordance with the provision of the Persons with Disabilities (Equal Opportunities, Protection of Right and Full Participation) Act 1995; a Chief Commissioner for Persons with Disabilities is appointed to coordinate the work of the Commissioners, monitor the utilization of funds disbursed by the Central Government, take steps to safeguard the rights and facilities made available to persons with disabilities. The Chief Commissioner for Persons with Disabilities is also mandated to submit Annual Report giving complete account of his activities during the said financial year to the Central Government on the implementation of the various provisions of the aforesaid Act. The Central Government is required to cause the annual report to be laid before each House of Parliament with the recommendations explaining the action taken or proposed to be taken on the recommendation made therein in so far they relate to the Central Government and the reasons for non-acceptance, if any, of any such recommendation or part.

2. The Chief Commissioner for Persons with Disabilities has submitted the Annual Report for the year 2014-15, and has made 6 recommendations (Copy enclosed). Recommendations No. 1 to 3 pertain to the State Governments while Recommendations No. 4 to 6 concern the Central Government which are as under:

"4. A toll free number/helpline should be provided by the Central Government. State Governments/UTs in their respective department for providing hassle free counseling/facilitation/grievance redressal for persons with disabilities on disabilities related issues.

5. A Review Committee of Department of Empowerment of Persons with Disabilities may revisit the identification of posts. Broad Category of disability like "Both Arms affected" (BA) or "Both Leg affected" (BL) should be further divided into smaller sub-categories. A person having both the arms amputated and another person having both the arms of weak muscle or of short each are kept in the same group. But the extent of their disability and capacity is very different. As a result, they are found equally not suitable for a particular post.
