About the Workshop:

Research provides us new domain of knowledge, new theories and laws, solution to a problem and open new areas of thought. Further it has the potential to question and analyse the existing theories in accordance to the present circumstances. Hence it is important for educational professional to be acquainted with the process of research i.e. research methodology. It is worth to mention that research is a systematic process and the knowledge of research methodology help to understand what to do in specific situation. Therefore it is very much important for a researcher to know all the aspects and steps of research process in order to make it systematic to a greater degree and hence, to stop the question to the reliability and validity of his/her work. This Training Course on Research Methodology will make the young researcher familiar with the various aspects, tools and steps of conducting social science research. The participant will be introduced to various methods of doing research. That is quantitative, qualitative as well as mixed method approach. Special emphasis will be given to qualitative approaches like phenomenology, ethnography, ethno-methodology etc.

Course Objectives:

The objective of this course is to provide an overview of the quantitative & qualitative research methods, assist immersion in specific techniques, and engage the participants with the key debates in the area, including those that argue on the essential unity of the logic of inference across research methods—qualitative as well as quantitative. The workshop will also introduce the participants to the key texts in the area of thematic focus, and introduce them to the approach of qualitative as well as quantitative research methods, specific tools, and techniques of data organization and analysis.

- Training and skill development in context of how to write research paper for publication.

About Visva-Bharati:

Gurudev Rabindranath Tagore established a school called “Brahmacharyasrama” for children at Santiniketan (153 kms from Kolkata) in 22 December, 1901 and it was around this nucleus that the structure of an unconventional university developed through careful planning. The school was a conscious repudiation of the system introduced in India by the

British rulers and Rabindranath initially sought to realize the intrinsic values of the ancient education in India. The school and its curriculum, therefore, signified a departure from the way the rest of the country viewed education and teaching. Simplicity was a cardinal principle. Classes were held in open air in the shade of trees where man and nature entered into an immediate harmonious relationship. Teachers and students shared the single integral socio-cultural life. After receiving the Noble Prize (1913) the school was expanded into University in 1921. Visva-Bharati was declared to be a Central University and an institution of national importance by an Act of Parliament in 1951.
