

Status Report on MHRD Wi-Fi Internet Usage during May 2019

- I. With five weekends and a holiday on Buddha Purnima, there were twenty working days in May 2019. Out of these BSNL link was down on eight days. NIC is coordinating with BSNL for restoring the service as early as possible.
- II. Further, the Internet server could not be run for two days (07 & 10 May) due to power shutdown for installation of new airconditioners at the Computer Centre.
- III. Thus MHRD Wi-Fi service was available for ten days during the month. All Wireless Access Points including those at Sriniketan were working on those days. (Traffic Report received from RailTel is appended)
