March 24-25, 2023 (Friday -Saturday)

Venue

Department of Lifelong Learning and Extension, Visva-Bharati, Sriniketan, West- Bengal, India

ABOUT THE CONFERENCE

Family-based Women's entrepreneurship has become a matter of concern in recent years. It stresses utilising women's leadership skills, decisiveness, and innovative ideas for economic and social development. Over the past years, there has been a rise in recognition and acceptance of women in leadership positions in different entrepreneurial businesses. However, despite all these developments, there are only a few examples where we can see women in top positions. Moreover, recent data suggest a huge gender pay gap in organisations, and female entrepreneurs are compelled to depend on their male counterparts for credibility and recognition. These examples suggest that gender inequality is still a big problem in entrepreneurship. Most family-based women entrepreneurs don't get the social support they require to kick-start their businesses from families, peers, and immediate ecosystems. Lack of mentorship from the business community is also one of the main challenges faced by women entrepreneurs in the country. This International Conference aims to divulge the problematic issues as well as opportunities for family-based women entrepreneurs through threadbare discussions from the scholars, faculties and knowledge masters who are working in this field.

About Visva-Bharati

Founded by the first non-European Nobel Laureate Rabindranath Thakur (popularly known as Tagore) in 1921, Visva-Bharati was declared a central university and an institution of national importance by an Act of Parliament in 1951. The President of India is the Paridarsaka (Visitor) of the University, the Governor of West Bengal is the Pradhana (Rector), and the Prime Minister of India acts as the Acharya (Chancellor).

About the Institute of Rural Reconstruction

PalliSamgathanaVibhaga(Institute of Rural Reconstruction) was originally established at Sriniketan by Rabindranath Tagore in 1922 with the primary objective to bring back life into villages, making them self-reliant and self-respectful, acquainted with the cultural tradition of their own country and competent to make efficient use of modern resources for the improvement of their physical, intellectual, and economic conditions. Leonard K. Elmhirst was its first Director. This Institute has four departments, a sectional library, and a Music Unit. The Institute is a balance between academic activities (teaching and research) and extension. Over the years, a substantive data bank of the villages under eight Gram Panchayats in Bolpur-Sriniketan and Illambazar Block has been built.
