

PEOPLE'S INITIATIVE IN BEAUTIFICATION OF THE CAMPUS - A REPORT

A small but significant step was taken by the students and teachers of the departments of Agronomy, Soil Science & Agricultural Chemistry and Crop Physiology of Palli Siksha Bhavana to plant *rangan* saplings in front of the departmental building with drawing inspiration from the students with their unique and intelligent idea of gifting *rangan* saplings to teachers on the occasion of Teachers' Day. Fourteen number of *rangan* saplings were planted on the both side of the tiled path in front of the building in the morning on September 13. The plantation was inaugurated by Professor Ashis Kumar Chatterjee, Principal Palli Siksha Bhavana and was graced by the Head of the Department of Agronomy, Professor Arun Kumar Barik and other faculty members. The students of the departments of Agronomy and Soil Science & Agricultural Chemistry were enthusiastic to carry out the transplanting work. The planting job was done with proper manuring in the pits and watering. Sincere efforts are put in place to protect the saplings from grazing by the stray cattle.

Date: Sep 13, 2019

Place: Sriniketan

Swapan Kumar Maity

Assistant Professor

Department of Agronomy

(on behalf of teachers and students of Departments of
Agronomy, Soil Science & Agricultural Chemistry and
Crop Physiology)

Students came up with an intelligent idea to present their teachers saplings of *rangan* on the occasion of Teachers' Day.

Professor Ashis Kumar Chatterjee, Principal, Palli Siksha Bhavana inaugurated planting of *rangan*.

Professor Arun Kumar Barik, Head of the Department of Agronomy was watering the *rangan* sapling after planting.

Students were much enthusiastic in planting *rangan* saplings in front of their departmental building.

The site of plantation
