

VIGYAN MELA

Celebration of the National Science Day

Organised by Siksha-Bhavana, Visva-Bharati

27th February 2026

Venue: **Siksha-Bhavana**

Building on the success of previous years, we are delighted to celebrate the **National Science Day** once again in the name of **Vigyan Mela** on 27th February 2026 at Siksha-Bhavana, Visva-Bharati. This special occasion commemorates the groundbreaking discovery of the “Raman Effect” by Sir C. V. Raman, for which he was awarded the Nobel Prize in Physics – an achievement that remains a proud milestone in the history of Indian science.

Aligned with the vision of *Viksit Bharat @2047* and the *Make in India* initiative spearheaded by our Hon’ble Prime Minister, Sri Narendra Modi, the celebration seeks to inspire and educate the young minds about the transformative power of science in addressing societal challenges and enhancing quality of life.

We cordially invite you to grace the **National Science Day** celebrations at our **Vigyan Mela**. Your esteemed presence is the catalyst for the success of this occasion.

WELCOME

Building on the success of previous years, we are pleased to organize a one-day program in celebration of National Science Day. This initiative aims to inspire and educate the younger generation about the transformative role of science in addressing societal challenges and enhancing quality of life. The program will foster scientific curiosity, critical thinking, and a culture of innovation among students, research scholars, and the broader academic community.
