

## **BLUE WHALE GAME: A THREAT TO THE MANKIND**

The Blue Whale game or Blue Whale Challenge is believed to be a suicide game wherein a group of administrators or a certain curator gives a participant a task to complete daily – for a period of 50 days – the final of which is the participant committing suicide.

At this juncture, it is essential for all community members like students, parents, staffs, faculty members to come together and resolve this problem as a whole.
