DURATION	TIME	REGISTRATION FEE	SEATS	LAST DATE
3 Days	3 PM – 6 PM	Rs. 300/-	Limited to 20	10 th September, 2026

ABOUT THE TRAINING

This intensive three-day hands-on training programme is designed to equip M.Sc. and Ph.D. students with practical skills in modern data analysis techniques relevant to agricultural and biological sciences research. Participants will gain experience in exploratory data analysis, statistical inference, regression modelling and introduction to open-source tools for reproducible research.

TOPICS TO BE COVERED

- Introduction to Research Methodology
- Parametric & Non-parametric Tests
- Exploratory Data Analysis & Data Visualization
- Correlation & Regression
- Descriptive Statistics & Measures of Association
- Hands-on practice with statistical software (R)

ELIGIBILITY

- ✚ M.Sc. students
- ✚ Ph.D. Scholars
- ✚ Students having basic knowledge on Statistics

IMPORTANT

- Participants must bring their own laptop
- Certificate will be awarded on successful completion
- First-come, first-served basis
