I'm delighted to tell you CWIT's trustees would like to offer you a grant of £1400 towards the in-UK costs of the visit you plan in connection with your research into the Gwalior Gharana in collaboration with Professor Martin Clayton and Dr Laura Leante of Durham University.

The only condition of the grant is that you write a brief report for CWIT's trustees on your return to India.

Please print, sign, scan and e-mail to me a copy of this letter if you wish to accept our offer.

Please also make early contact with Mahua Banerjee at British Council Kolkata who will support your visa application, advise you on medical and travel insurance and arrange for you to collect a cash card credited with your grant on arrival in the UK. She will also explain exactly how to activate it.

I am copying this letter to her by e-mail.

I am inviting you to join CWIT's Facebook Group, a useful source of professional and practical advice on research visits and a friendly group.

Shaped by the past, creating the future

10 March 2016

To whom it may concern

Dr Ranjani Ramachandran visited the Music Department of Durham University, UK, from 17 February 2016 until 10 March 2016 with the support of a Charles Wallace India Trust scholarship.

This visit gave us the opportunity to develop our ongoing collaboration on the study of khyal; the exchange and dialogue on our respective analytical methods culminated in a joint research seminar which we delivered on 8 March 2016 as part of the Music Department Guest Lectures Series. This seminar, entitled "Analysing North Indian khyal performance" presented the results' of Ranjani's work in Durham and the preliminary findings of the collaborative research we intend to further pursue in the future.

It was a great pleasure to have Dr Ramachandran as visiting fellow at the Music Department, and we hope we will have another opportunity to welcome her in Durham again in the future.

Best Regards,

Prof Martin Clayton

As you may know, Clarivate Analytics' Journal Citation Report announced the 2016 impact factor for *ACS Sustainable Chemistry & Engineering* (ACS SCE) as 5.951, an increase of 13% over the 2015 impact factor of 5.267 and an increase of 28% over the 2014 impact factor of 4.642. This latest impact factor is calculated as the average number of times that articles published in Volumes 2 and 3 (2014-2015) were cited in journals tracked by Thomson Reuters during 2016.

This performance is due to the contributions of authors like you. The citation rate for your paper "Facile and One-Pot Access to Diverse and Densely Functionalized 2-Amino-3-cyano-4H-pyrans and Pyran-Annulated Heterocyclic Scaffolds via an Eco-Friendly Multicomponent Reaction at Room Temperature Using Urea as a Novel Organo-Catalyst" is among the highest of the papers we have published. We thank you for your previous contributions and encourage you to continue to consider *ACS Sustainable Chemistry & Engineering* as you publish your work.

Sincerely,

David Allen

Editor-in-Chief

## Description

*Discovery and Development of Antidiabetic Agents from Natural Products* brings together global research on the medicinal chemistry of active agents from natural sources for the prevention and treatment of diabetes and associated disorders. From the identification of promising leads, to the extraction and synthesis of bioactive molecules, this book explores a range of important topics to support chemists in the discovery and development of safer, more economical therapeutics that are desperately needed in response to this emerging global epidemic.

Beginning with an overview of bioactive chemical compounds from plants with anti-diabetic properties, the book goes on to outline the identification and extraction of anti-diabetic agents and antioxidants from natural sources. It then explores anti-diabetic plants from specific regions before looking more closely at the background, isolation, and synthesis of key therapeutic compounds and their derivatives, including Mangiferin, Resveratrol, natural saponins, and alpha-glucosidase enzyme inhibitors. The book concludes with a consideration of current and potential future applications. [View more >](#)

Dear Sarbajit

**Re: Research visit related to our project on**  
***The Role of 'Fin-Tech' payment technologies in rural economies'***

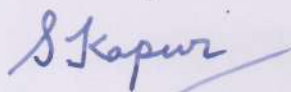

Thank you for ongoing participation in our research project which is exploring aspects of the push towards cashless economy in India. As you know, our research is funded by Birkbeck, University of London, using funds received from the Higher Education Funding Council for England (HEFCE) under the Newton Fund Banner. Details of the Newton Fund are at [www.newtonfund.ac.uk](http://www.newtonfund.ac.uk)

As planned, I would like to invite you to London for a brief visit of around 10 days to collaborate with my colleague Dr Arup Daripa and me, to complete our analysis of the data collected and to agree on our research findings. The precise dates for your visit depend on the availability of the tabulated data from the survey and on your availability. But I expect this to be sometime in the second half of April 2017.

Our research funds will pay for your travel (economy class from Kolkata to London and back); we will also reimburse you for the cost of procuring a UK visa and reasonable essential expenses for the duration of your visit. I would be grateful if you could assess likely costs for the air ticket so that I can ensure that sufficient funds are kept aside for it. You can coordinate these discussions with Dr Daripa.

I look forward to your visit, and do let me know if I can help facilitate it in any way.

Yours sincerely

Hi Gloria,

News following our Skype exchange: BU/WGS Director Dr. Carrie Preston and I are delighted to let you know that our UNESCO/UNITWIN Network's participant in the exciting Sustainable Development Goals project you are preparing will be Professor Asha Mukherjee of Visva Bharati, our Partner University in West Bengal. Asha has been contributing energetically to the research and social action of our UNESCO/UNITWIN Network for over a decade — among standout contributions were those she made as Founding Director of the Women's Studies Centre at Visva-Bharati, including hosting our 1st UNESCO/UNITWIN International Conference in 2008 co-sponsored by UNESCO-Paris; right through until serving as a Guest Editor, with contributions from herself plus another Network Member-Dr. Arvinder Ansari of Jamia Millia Islamia University/New Delhi to the Labrys/Brazil volume on *Indian Feminism* published this past academic year. Asha already has a stellar action-research track record in the key SDG 5-Gender arenas of ending discrimination, also violence, against all women and girls.

Asha's confirmation of participation in all phases of the Global Network initiative is below, and her bio note is attached with further details on her professional experience and research.

Congratulations again Gloria on what will surely be an outstanding Global Network contribution — we of the UNESCO/UNITWIN on Gender, Culture & Development are delighted to be part of it!

All best,

Brenda
